Spousal Monitoring

- 57% of people have used the Internet to flirt. (Greenfield and Rivet - Internet Use & Abuse Survey 1999)
- 38% of people have engaged in explicit online sexual conversation and 50% of people phone contact with someone they chatted with online. (Greenfield and Rivet - Internet Abuse Survey 1999)
- Evidence proves there is a high correlation between on-line cyber sex and subsequent sexual affairs. (Greenfield and Rivet - Internet Use & Abuse Survey 1999)
- 31% of people have had an online conversation that has led to real-time sex. (Greenfield and Rivet - Internet Use & Abuse Survey 1999)

Do you suspect that your spouse is cheating on you? Statistics prove that relations are being strained by sexual affairs that stem from online chat and other forms of communication. By using our software, you will be able to see for yourself if your spouse is cheating on you. All our products record all the conversations they have and e-mails as well [via the keystroke logger].

Businesses Administration

- 30 to 40% of Internet use in the workplace is not related to business. (IDC Research)
- 70% of all Internet porn traffic occurs during the nine-to-five work day. (SexTracker)
- 37% of workers say they surf the Web constantly at work. (Vault.com)
- 77.7% of major U.S. companies keep tabs on employees by checking their e-mail, Internet usage, phone calls, computer files, or by videotaping them at work. (American Management Association)

Facts prove that employee's are always drifting off task, and doing other things on the job other than what they should be doing. With our award-winning software, employee supervision has never been easier! You can monitor your employee's and make sure that they are staying on task, and not wasting your valuable money and time.

NetVizor is the perfect solution for businesses – you can now easily monitor and control all of your networked machines from one central PC – through a web browser. You can now monitor and control your employees, as well as monitor offices using the web cam surveillance system. NetVizor allows administrators to monitor a vast network, without having to physically go from PC to PC and collect data. Also, with NetVizor's built in standard encryption, you can be sure that data sent through the network is safe and secure.

Parental Control

- With an estimated 24 million children now online, one out of five have been solicited for sex over the last year. (Congressional Study submitted June 8, 2000)
- One in four children were sent pictures of people who were naked or having sex. (Congressional Study submitted June 8, 2000)
